I am a seasoned software developer with expertise in Java, Node.js, and ReactJS. My proficiency extends to a deep understanding of microservices architecture and containerization, leveraging tools such as Mocha, Chai, Jest, Swagger UI, as well as cloud platforms like AWS and Google Cloud.

WORK EXPERIENCE

Omega Technology • ILORIN, Kwara, Nigeria • 12/2019 – 01/2021

Fullstack developer

- Elevated user engagement and visual appeal by conceptualizing and implementing innovative web designs at Omega Tech. Collaborated closely with cross-functional teams to translate client requirements into intuitive and aesthetically pleasing interfaces. Successfully delivered projects that consistently met or exceeded client expectations, resulting in a 95% client satisfaction rate. Demonstrated proficiency in HTML, CSS, and JavaScript, ensuring seamless integration of design elements into functional websites. Actively contributed to design process improvements, leading to a 20% reduction in project turnaround time and a 15% increase in client retention.

Malhub • ILORIN, Kwara, Nigeria • 01/2022 – 05/2023

Fullstack MERN stack developer

- Led the successful development and deployment of dynamic full-stack web applications at Malhub, driving enhanced user experiences and increasing overall platform efficiency. Collaborated closely with cross-functional teams to deliver high-quality, scalable solutions, resulting in a 30% improvement in application performance metrics and a 20% increase in user engagement. Played a pivotal role in implementing agile development methodologies, contributing to a 15% reduction in project delivery time. Recognized for consistently exceeding project deadlines and delivering exceptional code quality.

Glopilot • Lagos • Full-time

Cab Hailing services

Backend developer

- I am leading the development of Cab hailing platform as a full-stack JavaScript developer. This involves a comprehensive overhaul, where I am implementing cutting-edge JavaScript frameworks on both the front-end and back-end. With a focus on meticulous planning and agile development practices, we are seamlessly integrating technologies of React Native for the UI and Node.js for the server.
